

# RALLY GUIDE I

**Rally** 2024  
**Zemaitija**

***Attention!***

***That is not an official document, just some information. Official information will be announced in additional competition regulations.***

**„RALLY ŽEMAITIJA“**  
**devoted to the memory of the rally organizer Tomas Savickas (1969 -2019)**

Every year the beginning of rally fiesta in Kelme reminds us about the sad loss – the unexpected pass away of the most important „Rally Žemaitija“ strategist Tomas Savickas. After bringing a solid rally pilot's experience, he managed to attract a lot of his friends to rally activities. Thanks to Tomas a small and peaceful town in the outskirts of Zemaitija, has become one of the most important rally centers in Lithuania, where most famous and wellknown rally stars from Europe come to compete, train and test their cars. „Rally Zemaitija“ so much cherished by Tomas Savickas, greeted Latvian and Byelorussian rally championship caravans, who took back home the best impressions. T. Savickas gave 19 years (1995-2013) to auto sport and he was not just a statistic element. Tomas became Lithuanian auto rally champion in his class 10 years, he won many rally stages and earned the name of sports master. In 2004 he established a sports club „Kelme ASK“, became the main organizer and auto sport judge of „Zemaitija Rally“, since 2014 he judged in almost all autosport rally championships, in 2018 he was given a national category.

We start to a new rally decade, where we take history, experience and a new logo, decorated with oak leaves and helmet, which symbolize respect and dedication to our land, sportsmen and people, who led us to today.

Our goal with a new logo is to maintain authenticity of Kelmė region, that is why oak leaves are chosen, because they represent the motives of Kelmė coats of arms and highlight strength, power, endurance and stability, values which are inseparable with auto sports. Racer's helmet shines with dignity and respect for sportsmen and people, who have brought us to today- sincere and warm symbol, which like a knight – invites to honest battle, inspires courage and protects everyone.

I am proud of the road we have gone and our new step and am sure, that taking experience, with a new logo and stages that have become classics, and new format we will not disappoint you and with great speed hurricane and passion in the race track we will meet the history. Thank you for being and will be together with Rally Žemaitija.

With best wishes from Žemaitija,, Ingrida  
Organizer of the Rally Žemaitija

## „RALLY ŽEMAITIJA 2024“ INVITES

---

On June 14-15 this year traditional rally „Žemaitija 2024“ will take place in Kelmė area. It will be the second stage of Lithuanian Automobile Rally Championship. The crews of Lithuanian rally sprint will participate in the championship and it will be their third season's credited start. The rally is organized by Kelmė Automobile Sports Club.

„We started the second decade of our rally- it is the eleventh “Žemaitija Rally”- says Ingrida Savickienė the organizer. We feel mature, more experienced and we will try hard to share the experience with all participants so that the race reward everyone with best impressions, and the fans after all they have experienced during the weekend would remember passionate fight and wonderful program after.“

Number 11 this year in “Žemaitija Rally” will be repeated more than once. It has been planned that rally participants will drive 11 special stages, total length is about 111 kilometres. Rally sprint participants, who will join the competition on Saturday will race in 6 speed stages- about 63 very fast kilometers.

„We have really many and different kilometers suitable for the race- says Edvinas Vašteris, chief rally safety officer. We also have nice spots for spectators , maybe not so very attractive for the public, but perfect to enjoy speed and professional skills of the racers on narrow wood roads: there are many narrow , but technically complicated stages, which give great satisfaction for the crews“.

Though the race will take part during the longest days of the year, sportsmen will have to try some night kilometers. On Friday evening, from 11.30 p.m., the crews will compete in the 5th rally speed stage. This stage is exceptional because Kelmė citizens will be able to watch the race in their town- it is the only town speed stage. It is logical that the race will take place on asphalt roads, but rally organizers added about 4 kilometers to the previous well known stage on town streets. And the final kilometers of the race will be on gravel roads through the wood – courage and accuracy are very important.

It is quite honest to say, that the organizers have presented a full bouquet of challenges for the crews on the first day. The very first speed stage will require full mobilization: it will be the longest in rally. Almost 14 kilometers stage, where the participants will race twice, will reach neighboring Šilalė region and old pacenotes will be useless; there are some familiar patterns, but rally organizers managed to offer perfect cocktail of emotions and skill. 2nd and 4th speed stages will be identical, 8,45 kilometers. After that racers will have time to get ready for the night race on Friday.

On Saturday, the most attractive place for the spectators will be the place where the crews will drive three times - the so-called "Firanta's" springboard located near Plumpiai in 6, 8 and 10 special stages should become the center of attraction for the audience. 8th and 10th stages will be identical (13.70 km each) and the 6th stage the crews follow approximately 1.5 km on the same road, but after one of the most spectacular jumps, the Road book will lead them to the other direction. Exactly the second half of this speed section only older racers can remember - this section has not been in the national rally championships for more than a decade. 7th speed stage is long too- the crews drive 13,36 kilometres in Raudiškė area. Stage 9 in Pašilė area is not new, but pacenotes will be useless – it was quite a long time ago when the sportsmen drove to the opposite direction. The final stage of rally (11th speed stage got the status of „Power Stage“) is 7,77 kilometres with some new elements.

„There will be lots of things: some patterns will require speed, accuracy and good cooperation between the crew members. We really hope that about 100 crews expected will enjoy the race-

organizers say. It is planned that about 70 crews will sign in overall rally standings, and more than 30 crews will compete in rally sprint championship.

In 2023 the winner of „Rally Žemaitija“ was the crew of Martynas Samsonas and Ervinas Snitkas, racing in „Skoda Fabia N5+“ The second finished Vldas Jurkevičius and Aisvydas Paliukėnas , the third award to Giedrius Notkus and Dalius Strižanas.

The main rally Cup of 2022 went to Sweden- Tom Kristensson and Andreas Johansson. In 2021 the crew of Vaidotas Žala and Andris Malnieks were the winners as well as in 2018, 2019 and 2020.

This year organizers created one more special classification: all racers, who have participated at least in five „Rally Žemaitija“ events during 10 years, will compete among each other. And it does not matter what place you reached in 2015, 2017 or 2023. If you raced at least 5 times in „Rally Žemaitija“, you can be one of so called old-timer rally Žemaitija list.

Impressive cultural program for Kelmė citizens and fans coming from all Lithuania is also arranged by organizers. First- the youngest rally participants and winners will become taking part in drawing contest. It does not matter if children like drawing sports cars, or use their imagination creating future cars, or maybe drawing old cars of their grandparents- all paintings will take part in the contest and might hope for the prize and public attention- during the time of rally and racing the paintings will be displayed in Kelme town, the best will be awarded.

Juniors will get a chance to learn some good driving skills: during the two rally days they can learn practical skills and get some knowledge if they wish.

Feeling quite mature ourselves, for the final event the stage will go to one of the most popular music bands in Lithuania „Rondo“. The musicians are perfect for the festival full of speed, passion and good mood.

It is high time to plan a trip to Kelmė in the middle of June: the summer starts in „Rally Žemaitija 2024“. Ticket price for 2 days competition speed stages is 15 euros.

## SPECIAL STAGES

---

**SS 1/3:** surface - gravel, starting place - gravel. Traditional speed stage with a long history, this year is longer than usual, with a partially changed configuration. The length of the section is 13.96 km.

**SS 2/4:** surface - gravel, starting place - gravel. A well-known version of one of the traditional rally sections with a length of 8.45 km.

**SS 5:** surface - asphalt/gravel, starting place - asphalt. Sufficiently modified traditional city speedway, some sections will be run in the reverse direction for the first time, and the end of the stage will be on a gravel surface. The track has been significantly lengthened, now its length is 3.94 km. This is the only one stage of the rally which will be run in the dark.

**SS 6:** surface - gravel, starting place - gravel. Only the first 1.5 km will be well know to the racers, next will follow a new section. The length of SS is 6.08 km.

**SS 7:** surface - gravel, starting place - gravel. It s a well-known stage of the previous years, this year extended and significantly modified. The length of the section is 13.36 km.

**SS 8/10:** surface - gravel with 1.5 km asphalt insert, starting place - gravel. It is a new version, has been created from the traditional well know speed sections. The length of SS is 13,70 km. The first 1.50 km are identical as SS6 section.

**SS 9:** surface - gravel, starting place - gravel. It is a section of the traditional speed stage, after a long time break, will be run in the reverse direction. The length of SS is 8.29 km.

**SS 11:** surface - gravel, starting place - gravel. The first part of the stage will be completely new and unseen for the racers, which later joins to the second part of SS 9 section. The length of this final stage is 7.77 km.

### **Recommendations for spectators:**

On the first day of the rally choose SS 1/3 or SS 2/4, then move to the city stage SS 5.

On the second day of the rally:

\* for those who don't want to migrate - the opportunity to watch the rally three times at the same point near the springboard in SS 6/8/10;

\*\* at the beginning watch the rally at the mentioned point near the springboard in SS 6, then drive over to SS 9/11 to continue watching;

\*\*\* at the morning watch the rally in SS 7, then choose a new observation point in SS 8/10 or SS 9/11.

More detailed information will be provided in Rally Guide 2.

---

## SERVICE ZONE

---

Service zone will be located on Vytauto Didžiojo Street, Kelmė, from M.Valančiaus street till Laisvės gynėjų square. Pavement: asphalt. Time: from **14-06-2024 8:00** till **15-06-2024 21:00**.

**Area assigned for one crew:** The Organizer will appoint the location of the service, taking into account the information received in the online entry form. Free of charge local service areas: LARC 1, 2, 3, 5, 6 classifications – up to **80m<sup>2</sup>**; other LARC classifications – up to **70m<sup>2</sup>**; all LARSC classifications – up to **60m<sup>2</sup>**. The crews can also book larger places paid an additional cost. Reservation closes on 03-06-2024 (Monday).

### Service zone infrastructure:

- Possibility to choose a service area: yes
- The availability of hot food: yes
- Possibility for hanging tents and promotional material: yes *(if the pre-agreed with the Organizer)*
- Toilets: yes
- Free Wi-Fi: no
- Electrical connection: no

**Service requirements.** During all rally time servicing of rally cars is allowed only in the Service zone in compliance with 2024 Lithuanian Rally rules requirements. Refueling allowed only in the Road book mentioned refuel zones according with 2024 Lithuanian Rally rules requirements.

**Only one service vehicle for the each crew will be allowed enter to the Service zone.** Special sticker issued by the Organizer must be stucked on the service vehicle windscreen. **Please leave your trailers in the Organizer's specified places.** Recce cars and team representative cars will not be allowed to enter to the Service zone area.

---

## TIRES AND FUEL

---

**During reconnaissance** are allowed only EU certificated tires intended for public traffic in Lithuanian Republic during the summer season, complying Traffic law requirements, and having EU standard relevant markings (badge "E" with homologation country code, eg; E2, E4, etc.)

**During the rally** the crews are allowed use only racing tires intended for gravel roads. The crews participating in LARC must use only tires as indicated in Appendix 14 of 2024 LARC Regulations ("Tires used in LARC"). In the LARC stage the number of tires is limited to 10 units.

All crews can use commercially available E85 fuel (bioethanol). Every rally car using E 85 fuel must be marked by special stickers 160x120 mm, with white note **E 85** on blue background. Stickers must be stucked on bodywork above rear wheel arches on both sides of the car.

---

## RECONNAISSANCE

---

Reconnaissance is allowed 13-06-2024 (Thursday) and 14-06-2024 (Friday) stricly according requirements of schedule, specified in Supplementary Regulations. All special stages are allowed to pass no more than 2 times. Identical stages will be counted only as one stage. Number of passes and all infringements will be controlled by GPS tracking system.

Reconnaissance may be performed only by vehicles complying with the requirements of 2024 Lithuanian Rally rules article 35.1. During reception of the Road Book, the crew must indicate all his vehicles, which will be used for reconnaissance.

**During reconnaissance participants must drive in such a way, that no caused danger or inconvenience for the people, residing close to the rally course** and to comply with the 2024 Lithuanian Rally rules, LARC Regulations and its annexes and Traffic law requirements of Lithuanian Republic. Driving in the opposite direction is strictly prohibited on the special stages. **Remind, that speed limit in Lithuanian Republic on gravel roads in non-residential areas – 70 km/h.** Somewhere allowed speed may be reduced by additional track signs, which will be mentioned in the Road Book. Use anti-radars and radar detectors is prohibited.

---
